

PRESS RELEASE

Project Team Solutions, Inc. to relocate corporate headquarters to Chantilly, Virginia

New office to be located at 4465 Brookfield Corporate Drive, Chantilly, VA 20151

CHANTILLY, Virginia (April 23, 2005) – Project Team Solutions, Inc. (PTS) announced today that it will relocate its corporate headquarters to Chantilly, Virginia. The new location will serve as both the company headquarters as well as the regional office serving Maryland, Virginia, District of Columbia and West Virginia. Two other regional offices serve New York, New Jersey, Delaware, Pennsylvania, Ohio, Michigan, Kentucky, and Indiana. Field offices are located throughout the entire Eastern United States.

The new office is located just 7.5 miles from the Dulles International Airport (IAD) in an area that has been branded "Silicon Dominion" for its high concentration of world-renowned technology companies. "The location is ideal for both our local clients coming in from Baltimore and Washington, DC and our out-of-town clients coming into Dulles" says Ty Witmer, President of Project Team Solutions, Inc. "We chose the location for it's proximity to the Federal Government and the high growth counties of Fairfax, Montgomery, and Loudoun and of course it's nice to have the airport so close by. Additionally, we are growing very fast and we need to have access to the tech-skilled workforce that the area provides", says Witmer.

"An added attraction was the fact that our campus is shared by Meridian Knowledge Solutions, Inc., a leading provider of knowledge management solutions, and Computertraining.com, a Microsoft training center. "The core competencies of these businesses complement our business and we are looking forward to forging a solid relationship with both firms. The proximity to ComputerTraining.com will provide us a good stream of MCP's, and MCSE's", says Steve Montgomery, Director of Professional Services for PTS.

Two features of the new facility will be a state-of-the-art training center and research and development lab.
